

MAERSK MAE - MSK

Dear Maersk,

MLL code is available on our side and we could emit this code.

Nevertheless We would recommend you to use MAE or MAL both available from our side and already a SCAC code of MAERSK

For new codes, SMDG is aiming to synchronise operator code with Scac codes of operators to avoid any confusion from Box operator, owner and liners, as much as possible

We are having our bi annual plenary meeting including operator codes committee this week.

Please let us know your requirements the soonest.

We could do MLL but

MLL scac code is used by
